Great. How about 1:00 PM. Would that work for everyone?

Hi Dan,

Monday works for me.

Thank you.

Thank you, Adbullah. Hi everyone.... Let me know if we can hop on a call either later today or Monday to discuss. I want to make sure Larchmont Charter management, faculty, and parents have absolutely all the information they need to manage through the expected inconvenience. Consider me available to assist in any way I can.

Thank you,

Dan Halden

Hi Ginna,

Thank you for taking time from your busy schedule to meet with us. We spoke directly with the Church, the ongoing development construction at Selma Ave and Highland and the Council Office yesterday. After carefully considering all the stakeholders' concerns and feedback, the management team concluded that the original phasing sequence must be maintained. The start of construction on the north side of Selma Ave is still scheduled to start on June 11th and will be completed in approximately 5 weeks. The south side of Selma Ave will be constructed immediately after for approximately another 5 weeks. We apologize for the huge inconvenience this causes for the parents, teachers, and students during this week. Please let us know how we can best accommodate the upcoming transition into construction for your school. Please note that the driveway to your school will be open at all times and our work will be only limited to the intersections.

We would really appreciated if you could distribute the flyers to the parents and inform them of the our upcoming project construction.

Thank you.

Hello Abdullah,

I wanted to let you know that I also got the email, but only saw it after our conversation. I noticed the flyer does not say which dates the traffic will go in which direction, so there's no need to redo the flyers or resend them. It's vague enough that either side of the street could be done first. How was your check-in with the construction sites just west of us toward Highland?

Ginnia Hargins, Larchmont Charter School, Selma Principal

Subject: Fwd: NOTICE: Construction on Selma Avenue - June-August 2018

To: Amy Held <amy.held@larchmontcharter.org>

This is what I was texting about. They met with Glendy prior to this e-mail being sent out and only just met with me Thursday morning. They thought that because Selma is done with school at that point, we would be too. I told them what a nightmare it would be for our carpool to have one way traffic going eastbound on Selma because it's opposite the direction we've told people to go in for carpool. I requested that they work on the south side of the street first and they said it depends on the progress of the 2 buildings under construction west of us toward

Highland as well as checking in with the church. I warned them that their people will be yelled at if they don't make the change. They talked about how long they've been planning this and showed me the images and I'm just amazed that we're just finding out. The last week of school may be torture because of this. They're supposed to follow up with me by Monday.

Neighbors,

As many of you know, this summer (June through August 2018) construction will take place on **Selma Avenue, between Las Palmas Ave and Schrader Blvd**, as part of the City's "Safe Routes to School" pedestrian safety project on the street. The goal of the project is to make this a safer corridor for people -- particularly children and families -- in the area.

Work will begin approximately June 11, 2018, and will last until approximately August 14, 2018. The work has been specifically scheduled so it takes place during the summer, when school is not regularly in session.

During the first phase of work (approximately five weeks), construction will take place on the **NORTH** side of the street, and **Selma Avenue from Las Palmas to Schrader will be one-way, eastbound traffic only**.

During the second phase of work (approximately five weeks), construction will take place on the **SOUTH** side of the street, and **Selma Avenue from Las Palmas to Schrader will be one-way, westbound traffic only**.

Please see attached for Construction Notices in English and Espanol. These notices will also be distributed in-person to the neighborhood over the next several days. Please feel free to share.

For questions directly related to construction, please contact the contractor, Louis Perez, at (818) 262-9881 or

louisperez@cometelectric.com. Please also feel free to contact me as well.

Thank you for your patience and understanding as the City brings this improvement to the neighborhood.

Best Regards,

Dan Halden
